BIRD ATTRACTING PLANTS

The following list includes plants that produce flowers attractive to nectar-feeding birds, plants that provide food source for insectivorous birds, and plants that produce seeds or fruits eaten by parrots, cockatoos, pigeons and finches. Another way to encourage birds is to incorporate bird-baths into gardens, however if there are cats in the neighbourhood it is important to take care with positioning, avoiding densely planted areas. Similarly, avoid planting low-growing bird-attracting plants in gardens where cats reside.

Acacia (most species)
Acmena smithii
Adenanthos cuneatus
Adenanthos detmoldii
Adenanthos sericeus
Agonis species
Alyogyne hakeifolia
Alyogyne huegellii
Agonis flexuosa
Agonis juniperina
Agonis linearifolia
Allocasuarina species
Alyxia buxifolia
Anigozanthos species
Austromytus 'Copper Tops'
Austrostipa elegantissima
Baeckea species
Banksia species
Bauera species
Beaufortia sparsa
Billardiera cymosa

Brachychiton species
Bracteantha bracteata forms
Bursaria spinosa
Callistemon species
Callitris species
Calothamnus species
Calytrix tetragona
Cassinia laevis
Casuarina cunninghamiana
Casuarina obesa
Casuarina pauper
Chamelaucium 'Lady Stephanie'
Chamelaucium uncinatum forms
Chorizema cordatum
Chrysocephalum apiculatum
Chrysocephalum baxteri
Correa species
Danthonia caespitosa
Darwinia citriodora
Dianella revoluta
Dillwynia hispida

STATE FLORA

BIRD ATTRACTING PLANTS	
<i>Diplarrena moraea</i>	<i>Micromyrtus ciliata</i>
<i>Doryanthes excelsa</i>	<i>Myoporum</i> species
<i>Dryandra</i> species	<i>Nematolepis phebalioides</i>
<i>Enchylaena tomentosa</i>	<i>Olearia</i> species
<i>Eremophila</i> species	<i>Orthrosanthus multiflorus</i>
<i>Eucalyptus</i> most species	<i>Pandorea pandorana</i>
<i>Gastrolobium celsianum</i>	<i>Patersonia</i> species
<i>Goodenia ovata</i>	<i>Pimelia</i> species
<i>Goodenia varia</i>	<i>Pittosporum phylliraeoides</i>
<i>Goodia lotifolia</i>	<i>Poa labillardieri</i>
<i>Grevillea</i> species	<i>Prostanthera aspalathoides</i>
<i>Hakea</i> species	<i>Prostanthera chlorantha</i>
<i>Hardenbergia violacea</i> all forms	<i>Prostanthera serpyllifolia</i> ssp. <i>microphylla</i>
<i>Helichrysum scorpioides</i>	<i>Pultenaea daphnoides</i>
<i>Hibbertia</i> species	<i>Pultenaea pedunculata</i>
<i>Hymenosporum flavum</i>	<i>Santalum acuminatum</i>
<i>Isopogon</i> species	<i>Scaevola</i> species
<i>Ixodia achillaeoides</i>	<i>Senna</i> species
<i>Juncus kraussii</i>	<i>Syzygium australe</i>
<i>Juncus pallidus</i>	<i>Telopea speciosissima</i>
<i>Kennedia</i> species	<i>Templetonia retusa</i>
<i>Kunzea ambigua</i>	<i>Themeda triandra</i>
<i>Kunzea baxteri</i>	<i>Thryptomene calycina</i>
<i>Kunzea pomifera</i>	<i>Thryptomene saxicola</i> forms
<i>Lagunaria patersonii</i>	<i>Verticordia</i> species
<i>Leptospermum</i> species	<i>Wahlenbergia</i> species
<i>Lomandra longifolia</i>	<i>Xanthorrhoea australis</i>
<i>Lomandra multiflora</i> ssp. <i>dura</i>	<i>Xanthorrhoea quadrangulata</i>
<i>Lophostemon confertus</i>	<i>Xanthorrhoea semiplana</i>
<i>Melaleuca</i> species	<i>Xanthosia rotundifolia</i>
